Taurus Z

"There is something extraordinary in Shinhung"

Slim design, easy-to-use operating system, equipping very-necessary functions broadly,
eliminating unnecessary part...

In the combination of such factors, the most practical and economical unit & chair 'Taurus Z' is created.

We have a conviction that unit & chair which is indispensable product in dental practice shall be this degree.

Make your treatment reliable and joyful with Taurus Z manufactured by 50 years' experience and know-how of Shinhung.

There is something extraordinary in Shinhung

● **Natural movement headrest**

Adoption of natural movement enabling angle adjustment freely by the movement of patients' head. Possible to adjust to suitable position for small children.

● **Instrument table and instrument holder**

Fan-shaped tray table providing the maximum working space and joint-simulated instrument holder realizing the best free movement. Also centralized switch panel mounted on instrument holder is designed to use essential functions conveniently.

Taurus Z

Operator-orientated unit & chair

In the development of unit & chair, the first thing to consider is Operator. Unit & chair furnishing slim / simple design and convenient functions for operator is born.

'Taurus Z' is a real operator-oriented unit & chair.

Taurus Z

Unit & chair satisfying to everybody

During the operation of unit & chair,
there are patients lying in seat actually
and hygienists assisting treatment as well as dentists.
Taurus Z is unit & chair satisfying everybody at the same time.

● Detachable glass spittoon

Glass spittoon which can be detached from unit equips tumbler filler working automatically by optical sensor for any type of tumbler – therefore no need for a support and is easy for cleaning.
Thanks to large-size filter mounted on drain part, it is easy to dispose wastes.
After tumbler filling, spittoon bowl is automatically flushed out.

● Assistant instrument holder guaranteeing comfortable position in taking out instruments

Assistant instrument holder is slide in-out type and angle adjustable.
As switch panel for controlling chair position and holder for instruments is in one-body, assistants' work becomes much easier. Also multi-purpose support table is pre-installed.
