

MAKE YOUR PRACTICE EXTRAORDINARY

The EzRay, VATECH's intra-oral X-ray imaging system, creates a more sophisticated clinical atmosphere.

Secure Clear Image

With a 0.4mm focal spot, the EzRay provides you with a much higher resolution image for a more exact diagnosis. Whether it's film or a digital sensor, you can always acquire the best image information with the smallest focal spot technology.

Reliable Design for Easy & Stable Use

The ergonomically designed X-ray tube head can be positioned at any anatomical imaging position. In addition, the strong and stable arm produces distortion-free images and allows simple positioning.

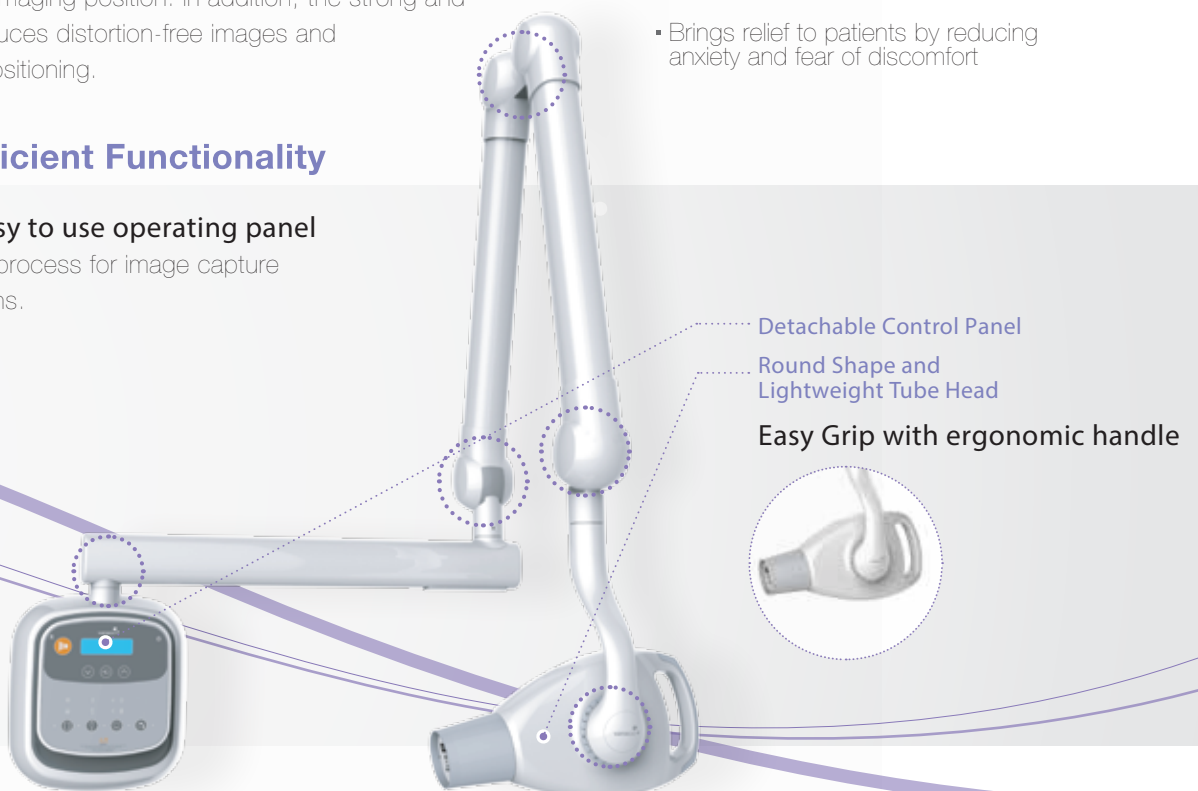

Easy & Efficient Functionality

Intuitive & easy to use operating panel

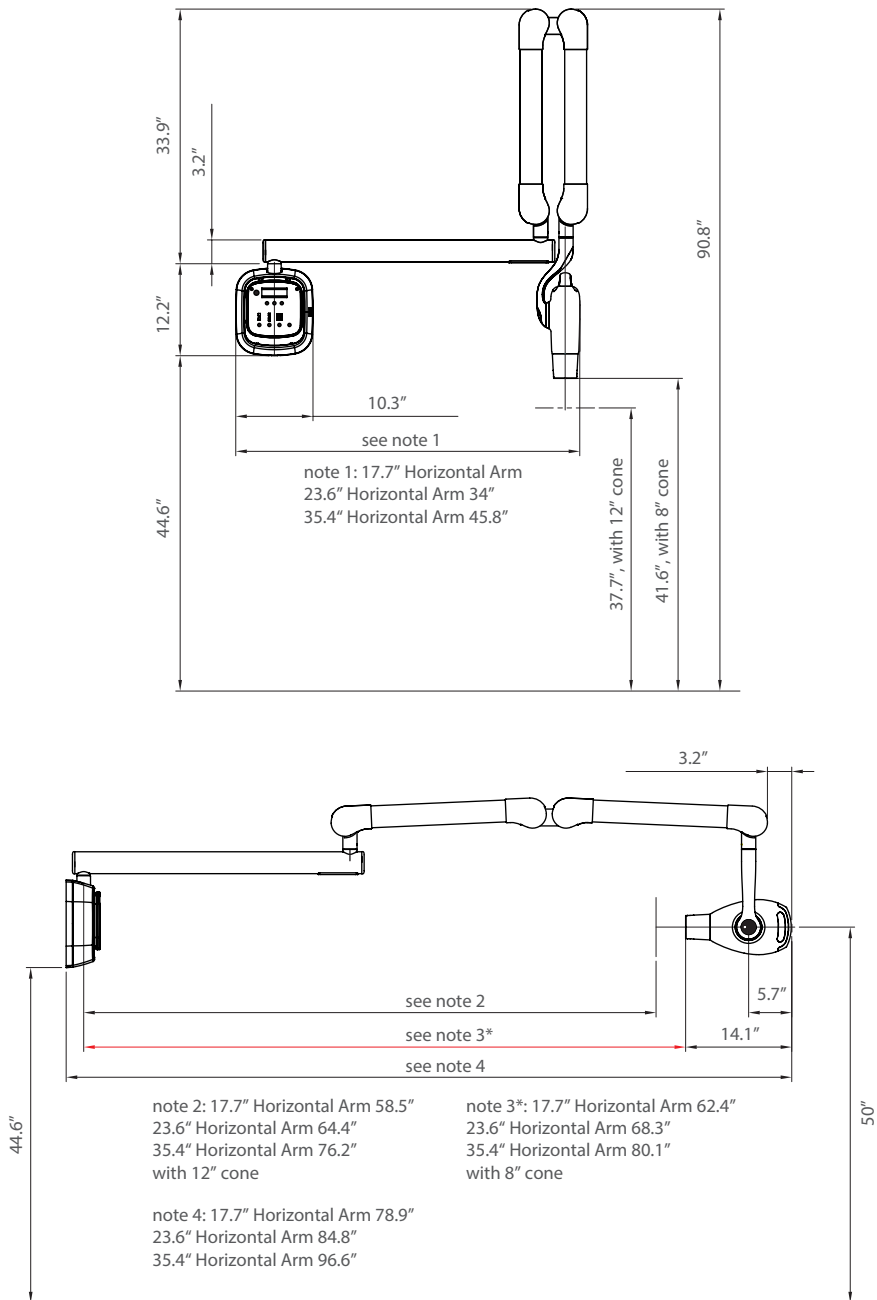

Straightforward process for image capture with Intuitive Icons.

Sophisticated Design

- Creates a modern and comfortable atmosphere in your clinic
- Brings relief to patients by reducing anxiety and fear of discomfort

Dimensions

Specification

Focal Spot	0.4 mm
Tube Voltage	Selectable 60 ~ 70 kVp
Current	4 ~ 7 mA
Exposure Time	Selectable 0.04 ~ 2.0 sec
Arm Length (Option)	62", 68", 80" *See note 3
Weight	56.9 lb (25.8 kg), 58.0 lb (26.3 kg), 61.1 lb (27.7 kg)
Line Voltage	100 ~ 230V ± 10%
Accessories	Exposure hand switch Cone : Round 16", "8" Double Stud Wall Bracket
Option (Cone)	Round 12", Rectangular 12"/"8"
